

```
var a = 'hello';
if(a != 'true'){
    document.write('a is not TRUE after checking');
} else if(a == 'false') {
    document.write('a is FALSE after checking');
} else {
    document.write('a something other than true or false');
}

var a = '2';
if(a == 2){
    document.write('condition meet');
} else {
    document.write('no conditions meet');
}
```
